

372 bp event
PacBio reads separated
by haplotype using
whatshap

Most PacBio reads
on haplotype 1
(HP1) support the alternate
allele

Most PacBio reads on
haplotype 2 (HP2)
support the reference
allele

A schematic diagram of a DNA microarray. It shows a grid of red and purple horizontal bars representing spots. Two vertical black lines with arrows pointing down indicate specific columns. Labels on the right side of the grid include 'm140615_042', 'm150213', and 'm150125'.
